

STIEBER ORTHODONTICS

WHY WE STAND OUT

35 Years of Experience – Dr. John Stieber has been creating beautiful smiles since 1978 when he opened his practice. He has been a proud member of the Mill Creek community for more than 30 years. In that time, he has treated thousands of local residents including the neighboring dentists and their families. Many of his original patients have brought in their children for orthodontic treatment.

Great Orthodontic Care – Dr. Stieber and his team are committed to providing outstanding care and service to patients and their families. Our goal is for every patient to achieve a beautiful smile in the shortest time possible.

State-Of-The-Art Treatment – We use the finest orthodontic systems available. This includes the Damon® and Carriere passive, self-ligating braces systems, and clear aligners. Treatment time is typically shorter than with traditional braces. Shorter treatment time means fewer appointments and a beautiful smile...faster. Dr. Stieber is also the only orthodontist in the area who provides in-office laser tissue therapy.

Early Intervention – State-of-the-art treatment and Dr. Stieber's extensive knowledge and experience has greatly reduced the number of patients who require early treatment. No headgears are used, and very few palatal expanders. This results in reduced treatment times, simpler appliances and less expense, while still obtaining outstanding outcomes.

Adult Treatment – It's never too late to perfect your smile! We offer the latest types of orthodontic treatment for adults, including invisible, self-ligating braces that offer optimum results in less time. Fewer patients require surgery and/or tissue grafts with these braces. Bone and tissue health are greatly improved over conventional braces. Smile width is gained, resulting in a more youthful appearance.

Complimentary Consultation – If you feel you or your child may be a candidate for orthodontic treatment, we offer a free consult, which includes an orthodontic evaluation. Find out at no cost what orthodontic treatment options are available to you.

All-Inclusive Fees – Our fee covers everything from the placement of appliances to post-treatment follow-ups. All appliances, adjustments and appointments are included. There are no extra or hidden charges once you become our patient.

Family Discount – We offer a discount to families who have multiple members undergoing orthodontic treatment.

Patient Referrals – Word-of-mouth referrals from satisfied patients and parents have been a mainstay of our practice since it opened in 1978. We are very appreciative when patients and their families refer other family members, friends, classmates, and neighbors.

Fun Environment – Through our Smile Club, we offer a Patient Rewards Program as well as a variety of games and contests where patients, and their siblings, can earn points and win prizes.

Modern Facility – Our office is designed to make patients, parents and guests feel welcome and comfortable. We offer a variety of amenities, including our complimentary Wi-Fi Coffee Café, spacious reception room, movie theater, video game area, and bright, open clinic area where parents are always welcome.

Strong Community Presence – Dr. Stieber is well-known in the Mill Creek community. He is a member of Rotary International and a proud sponsor and strong supporter of local schools, sports teams and Mill Creek organizations and activities.

MISSION STATEMENT:

Our purpose is to create in our patients a beautiful, healthy smile, and an enhanced self-esteem using the latest technology in a personal, caring environment.
